INSIL 表面硅胶涂布耐热布系列

基材: KM600 系耐高温布

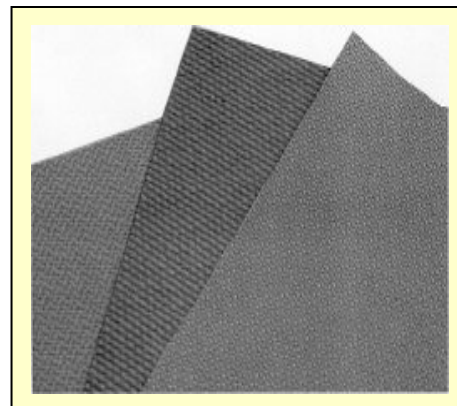

表面 Coating: 耐热硅胶

耐温: 260

特性: 具弹性及气密性, 耐油水

应用范围: 膨胀节, 补偿器, 保温夹克,
伸缩蛇管, 油压气压缸防尘套

符合中华民国 CNS 10285/A2 一级耐燃标准

INSIL Silicone Coated Fiberglass Cloth

The INSIL series fabrics are made of fiberglass Cloth with specially formulated, flame retardant, rugged silicone rubber coating and impregnation. The fabrics are engineered for standard duty insulation jacketing and flexible ducting applications with proven performance since 1985. Long term temperature limit of the fabrics can be up to 260°C or higher with oil, water and moisture resistance.
